

Dear friends and partners reaching the tribes in Bolivia,

Here it is the middle of May of 2021 and we had hoped to have fresh field news from Bolivia. Our trip was stopped by the government of Bolivia stating the conditions in Bolivia at that time were not good for outsiders to enter the country. Our trip was set aside for another time, hopefully in the near future.

There is some exciting news as we look back on 2020. It seems like yesterday we told you about videos we have been working on in the language of several tribes. We have finished the Genesis project, (over five hours of stories from the OT) in four language groups. Unfortunately we have a finished video we were going to take with us on this trip to one group, but they will have to wait until we can get down there.

We have finished the ACTS video and have it in the hands of the Chimane people. We are waiting on a report as to how the people have received it. It is also been formatted for use on their cell phones. Amazing!

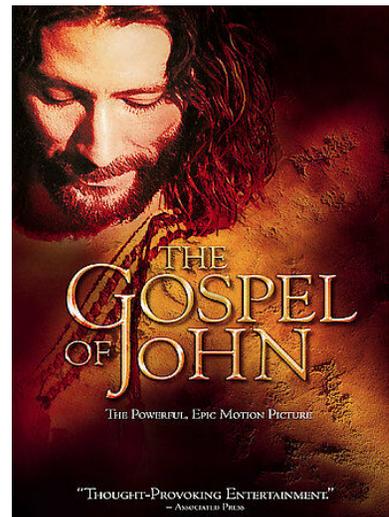

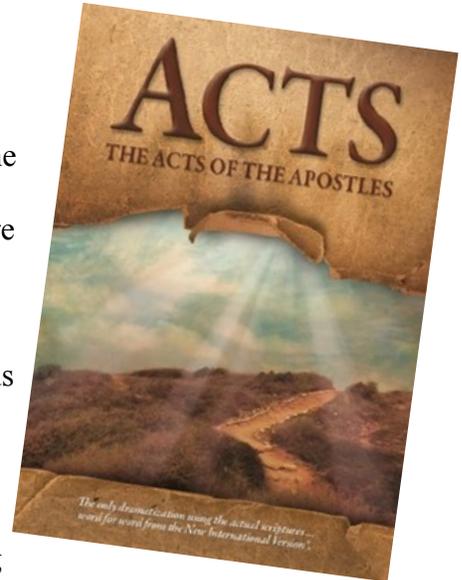

At present, we are working on the video JOHN and doing some recording projects with some of the Chimane women. Several women have stepped forward and are willing to do some lessons for radio broadcasts in the near future.

Speaking of Radio- this is the month we are working on relicensing our radio for hopefully several more years of broadcasting. Our last license was good for 20 years, now I believe it will only be good for five years. Please pray with us for some extra funds to do all the paperwork and for the people doing the paperwork. It is usually a slow process and takes many hands to get the job done correctly!

We remain on the air 24/7 which is huge for so many in our area of broadcasting. We praise the Lord for this outreach to continue.

We desire to return to Bolivia and have hands-on ministry with the people we know and serve. In the meantime we are thankful for the technology we have to continue helping reach isolated people groups. It is so amazing how the world has become so connected through technology.

Gabriel informed Daniel in Daniel 9:22, "O Daniel, I have now come forth, to give you skill to understand". A skill to understand what is going on in the world of ours can only come through the Word of God. We need men and women today to be filled with understanding and press on in faith.

We thank you for all your prayers for continuing this ministry via radio, cell phones and word of mouth. Thank you for your offerings to continue to keep the radio and broadcasting available.

in

God bless you and keep all of you safe and refreshed His precious Word.

Bruce and Jan Johnson
