

Food and fellowship!

We all woke up to a special noise this morning. Lightning, then REAL loud thunder. The kind that wakes you up, then it's tough getting back to sleep. I nearly forgot what that sounded like. We had a saying, "no flights today" if one was expecting to get out of the jungle by small plane.

These two fellows and their wives finished reviewing the Genesis Video, over five hours and a two-hour Mark video that was also put in their language. They were very pleased to see the finished product. From here they are planning some trips by canoe or truck to visit some of the villages along the river that they know so well.

They are equipped with a small projector, a solar system to keep the battery charged, screen and lots of ambition

to go forth. We pray God's speed for them that many souls will be reached. God's word does not return void.

We are expecting some new folks tomorrow from a different language group. There is high interest in doing some recording for them.

Thanks for holding us up in prayer, week one is nearly over and it seems like we are just getting started.

Do you miss these?

God bless from the new room, Bruce and from my wonderful secretary (Jan) back home.
