

August 18, 2022

Hello dear friends,

I have not cracked up, but it is time to duck out of here and head south. There is still some time, but the middle of September is coming faster than a duck can fly.

Goals for this trip are somewhat like other trips.

1. We have finished reordering the JOHN video in Chimane. We need to go over all the audio clips that are in the video for clarity of speech.
2. We are nearly finished with the JOHN video in Ayore. We also need to do an audio check of this video. There are three episodes in these films including over 800 audio clips with various speakers. This film is nearly 2 hours long.

3. We have over 100 4g flash drives to load and get out to the people who can use them.
4. We have several solar powered radios out among the people which use these 4g flash drives. These flash drives contain Bible programs, videos, and songs in the language of the people.
5. A huge goal for this trip is to proceed with a project for a conference center.

Why a conference center? Not all Chimanes can reach one location for further Bible training and view these videos that have been produced. This is a very exciting project, and we pray it will happen soon. By faith we sent a crew out to the woods to cut posts for the building. There is always a first step!

Prayer requests:

1. Safe travels
2. For good reviews of these films. Now is the time to find any mistakes and redoes before the final copy is made.
3. We do need your prayers and financial help for this trip, travel has gone up a lot these days.

4. Please pray for plans for this new conference center, it will be a huge blessing to meet in one building instead of a few in a house or outside under a tree.

If you would like to help us financially, please go to our website and donate under JOHN Video Project.

Proverbs 16:3 – “Commit thy works unto the Lord and thy thoughts shall be established.”

God bless you all. We press on to help those in isolated areas of the world.

Bruce and Jan Johnson
